PROFILE

Frontend developer with 2.5 years of professional experience in React and TypeScript. I enjoy turning designs into functional, responsive interfaces. I am also building my own project with React Native. I am looking for a team where I can use my skills and keep learning from more experienced colleagues.

WORK HISTORY

wingbot.ai 2024 - present
Frontend developer

Building user interfaces with React and Next.js, integrating REST APIs, working with data tables and charts, and generating PDF reports. Writing automated tests with Vitest.

BPMN software and service s.r.o 2023
Tester / technical support

Manual and automated testing of an application for a client in the investment sector. Preparing test scenarios, working with developers, and reporting bugs. Providing technical support for the client's sales team.

MY PERSONAL PROJECTS

Skvadra
In development. An app for sports teams that makes communication between coaches and players easier. Main features include event management and chat channels. Tech stack: React Native, Firebase, TypeScript.

React e-shop
In development. A clothing e-shop built with React, Tailwind CSS, and Firebase. I created my own product database and added AI-generated product images.

AI meals [link](#) [GIT](#)
A blog built with Next.js. It includes an admin page for publishing new articles.

TECHNOLOGIES

React / TypeScript / React Native / Firebase / REST API / Git / Next.js / Tailwind
